Inaugural Address

Good Afternoon! Ladies and Gentlemen,

I am honored and very grateful to have been elected the 11th Chairperson of Information System on Occupational Exposure.

Firstly, I would like to convey my deepest gratitude to Mr. Willy Harris who had made enormous contributions towards the growth of ISOE as the Chairperson over the last 2 years.

I would appreciate a big hand of applause for his dedicated endeavors.

As you are well aware, interest of the general public on the safety management of radiation has rapidly increased due to a series of accidents in the nuclear industry.

Moreover, the importance of international cooperation is recognized more seriously than ever. With my appoinment as the position of the Chairperson of ISOE at such crucial time, I am keenly aware of the tremendous sense of responsibilities put on my shoulders.

The importance of the role of ISOE is being further highlighted

as ISOE is implementing an extensive range of technological activities with the aim of sharing the lessons and specialized technologies in management of exposure to radiation with our member countries.

On the foundation of aforementioned important roles of ISOE, I shall put my utmost efforts to achieve further advancement of ISOE during my term.
In particular, I shall ardently pay close attention on establishing the means of closer mutual cooperation between the member countries as well as recruitment of new member countries.

On the basis of my professional experiences in safety management of radiation and radioactive wastes over the last 30 years, I shall endeavor to put my utmost efforts for further growth of ISOE by accommodating a diverse range of opinions of the Management Board Bureau and the Management Board.

I would like to convey my gratitude for having been elected the Chairperson once again, and seek your unsparing advices and cooperation.

Thank you very much
